

Your Partner for Perfect Measurements.

Measure with confidence, decide with certainty!

Every measurement counts. QNix® coating thickness gauges combine precision, reliability, and ease of use to give you the confidence that every reading is accurate, no matter of the environment or application, from Vehicle inspection to complex industrial coatings.

QNix® 5500

The easiest way to perfect measurement

Withstands dust, moisture, and harsh environments.

Interchangeable probes offer maximum flexibility on various materials (ferrous or non-ferrous).
